• these are all p2p patterns
• on Statler Stitchers use them with the Apply function
• on Intelliquilters use them with the Pattern Path function
• detailed instructions as to how to use them downloadable from the website (info page / how to use)
  • when there is a pattern which has been flipped to have a one up one down
    – I have usually moved them closer together to give a shorter repeat
• in multi-curved area, patterns with their star/finish points at the half height point have a more even appearance across the curves
